“Greeting brother.”

“Greetings my friend.”

“GREETING BROTHER.”

“GREETINGS!”

“Greeting my little ones.”

“Yes friend.”

“Brother? When make you sing that hymn, you sing this time, this last time we listen.”

“Yes friend.”

“This woman stand by me. Mother this woman, stand, much happy she, you sing her hymn. She ask me say, thank you, you sing her hymn.”

“God bless you.”

“She help this woman brother, she help. Many help. GREETINGS MY LITTLE ONES!”

“Greetings.”

“Is this time much festive, you. Is bright thing, round, you celebrate birth - your baby, you say. But you have made celebrate, birth, the one come your earth and now in your earth year is drawing, few days time, finish - earth year. In Spirit we no time. We no years, we no hour, moment, day - say year finished! But in earth you must have times, days, week, month, year. We know this has been all time.

“As you come end of this year, this time you say ... What say they Boy? ... Boy say seventies. You come end of seventies, you go into new year. Many you, look back and remember good time.

Remember bad time, in past years. But none of you know what lie in next year and years, which is good.

“Boy say me ... I explain. Boy help me speak to you. He stand here and help me. I talk, he help. Boy say me, he has been busy past week so ... week or so ... helping many troubled conditions – rain. You have had in your world much raining, much water. Much water. Boy say many people much unhappy that water come so bad. He ask me tell you little story he experienced, past few days. He say he hear people blame God, blame Great Spirit; water come, river rise, take away things material you need. He hear many people say God do these things. He say me, say you, is rubbish. You no blame God. You life by river, river rise and wash over. Is bad. Is bad these things happen, but is condition of men live near water. You understand? All times you make blame God when things of weather go wrong when all conditions are created by man living near. You understand?”

“Yes.”

“He no stand Boy say ... Ha. He a funny Boy. He no stand big water can. He no stand big water can. Is necessary you have raining at times, and if at times of raining you conserve water you have no times when you are dry. But you no do that. You no do that, because where wish you put water is wrong place. We no wish water put there. We no wish we live there. Is frustrate conditions earth, times. But, Boy go, short days ago to place where, in Devon, is much waters. Is much peoples unhappy. Is much animal unhappy. And Boy go help animal. He say many go help. You no see us when we come try help you, but we come impressing others to help you. You understand?”

“Yes we do.”

“He go house. One house. One other house. One other house. And then see he little light. Light shining round one person. He see water in street. He see two strong man go house, bring out old woman, put little ... boat, he say. Put little boat on waters, old woman. And Boy see old woman, something she hold. And little light around her. Old woman sat in little boat and make pray. She no say, “God, why wash you my house? Why do you this?” She say, “Thank you God. You save my little dog.” And in her arm is nothing but little dog. She no think her own worries. She think in love of

little dog and she give thanks to Great Spirit. And Boy say round was light.

“My little ones when pray you, in love, your love makes Light that Spirit sees around you. When you anger, when you shout, one the other, is not good. But when is lifted heart in love for others, is closeness of Spirit. Spirit, we you call Spirit, who are only as you, but we you call Spirit for you no see us as we see you. Are always here with you. We are not one world, you one world, we are all the same world, all on different levels of thought, but all the same world.

“This past year you have had many lessons to learn. But many bad things have happened. There has been greed. Much greed. There has been wanting more, wanting more, wanting more, where times more was not needed. It was wanted for better things. You in the material world must live materially. You must have clothes, you must have food. You must have house, live. But these things are [...]. my little ones. Remember that.

“So often. So often. We hear people praying, on their knees. Praying, ‘Dear God. I want new motor car.’

“You may not believe this but it is true. When one kneels or stands to pray, comes Spirit to listen, and that is what we hear. I want. You have goggle-box, you want more big goggle-box. You have motor car, you want more big motor car. You have roof, you want bigger house, better all times.

“Thank you God for saving my little dog.

“The things in life that are precious to you are those that you love and those to whom you give out love. Some may laugh, old woman love dog. Old woman love cat. Some may laugh and say, is wrong. None laugh that mother love child. Husband love wife. Yet all is living. All is life. You, animal, all is life. You can love flower, is good. Love anything, is good. But when greed come in to prayer. Is bad. Is bad.

“Times we hear you say, ‘Good old days.’ Boy tell me he often laugh, times, when hear people say, ‘The good old days.’ Many bad things have happened this year that is finishing. But many more bad thing happen one hundred years, your time, ago. Two hundred

years, your time, ago. Is really not more bad this time than has ever been your world for long, long time. But who can make it better!!

“You say, it is impossible make our world more good. There are too many peoples in the world. How can one person make world better. You have been celebrating birth of one who came two thousand years, your time, ago, to make world better, and what happened to him?

“But, whatever happened to him, he said, did not matter if a seed was sown and help was given to one, to two, to three, to four, to a few who were helped. If each one here. Each one in your world can, in their lifetime on Earth, help one other. Truly and sincerely help one other then your time on Earth has been worthwhile.

“I on Earth, many, many years before come your Master. I not contact many, many people like you today. But at that time tried we the one to help the other. And try we still to come back to help you. Many , many times. Many, many times we come. Try find someone permit we speak through them to you, but they no permit. They fright we. They fright. They ... they frightened of we to come speak to you. We cannot understand this. We come, listen to us. We come when you are quiet, when you are uplifted. We speak into your mind. For each one of you here has someone in Spirit who is trying to help you. Who is trying, in love, to help you on your path of learning. Listen to us. Be aware of us. Even if with your five diminutive senses you cannot always see us. You cannot see the air you breath which keeps you living in a material world but it is there and so are we.

“As you come out of this year remembering back: the strikes, the troubles, all the worries you have had. The wars, the imprisonments. The assassinations that have gone on. Not in somebody else’s world, in your world, even if not in this part of it.

“Take them as lessons. Try to say, in the next decade this will not happen. But it is already happening. It is already building up, one, two, three, four day ahead you come into, you say, your new year of your time. There is already trouble coming. There is already trouble in the new year ahead. But you can ride over it because it is material trouble and you are Spirit.

“Go out into the world and tell the people that these troubles, these things do not matter. They are lessons to be learnt. It is bad. It

is unhappy that come waters, come bangs from sky, come many things worry you. Come death, which worry you more than all things and yet is the Rebirth.

“Let them not worry you. Did not the one who you listen to now, although many would not listen to when he was on Earth. Did not that one say, “Let not your heart be troubled.”

“It is easy me say this. I am, Boy say, in lifeboat. I am all right. I have no material troubles. But my little ones, I have many troubles looking at you and wishing that you could be more conscious of us and go forward into this new year knowing that you never, ever walk alone.

“Not only we, who you say you do not know – although you may be surprised when you come yourselves how many of us you remember. But not only we, but those who have been on the Earth plane with you, come back. Are with you at this time trying to help you.

“Your unhappiness makes them little unhappy, but with a greater philosophy; knowing that every sorrow you overcome is a step on your path of progression.

“Boy say, I talk too much. Boy also say, I talk many things. He also boss me all time, Boy. Say, be quite you speak enough. But like I speak, you. Like I feelings from you and happy I come brother. Please you permit I come. Please you permit all we come. Many we come. Your friend, all. Many, we come. But now I go. I leave you with a thought.

“Year coming is what you make it yourself. You must live it yourself. No other man. No Spirit can live it for you. Whatever come to you accept as a challenge and go forward always helping others. And you will find when come the end of this year into which you are stepping, it will be a better year. For you have met it and gone through it with love and with understanding. And those of you who are fortunate enough not to get through it, but to come and be reborn into Spirit, I say to you there will be a wonderful awakening. A great welcome. And even here it will be what you reach out and make of it yourselves.

“The blessings of Spirit on you. Go forward always with patience, with tolerance and with love. And ever uplift yourselves,

for within you is that spark of Great spirit which can heal you and can help you through your lessons in the years to come.

“Our blessings upon you.”

“Bless you.”

“And peace. Peace in your hearts that can spread out a little towards peace in your world. Amen.”

“Amen. God bless you.”
